

Affordable safety vests customized to meet your needs.

When it comes to safety vests, Goodwill Contract Services has everything you need. Custom designed to meet your specific requirements, Goodwill's full line of safety vests combine affordability, design, and function.

Our dedicated team of professional sewers works closely with you to create the best vest design for your specific application. Then we bring your idea to life using certified 3M products and materials. And our attention to detail is unparalleled. In fact, most of our professional safety vests meet or exceed the strict standards set forth by ANSI/ISEA 107-2004.

It's not just Goodwill.
It's good business.

Safety Vests that work as Hard as you do.

Styles and options that fit virtually any application.

Whether you're looking for basic high-visibility safety vests, those that pass ANSI standards, or those that possess fire retardant qualities, Goodwill has a vest that'll do the job. These vests are made by hand in the USA and customized for whatever job that may be.

- Parking lot attendant + Shopping cart retriever + Worker exposed to warehouse equipment traffic + Forestry operations
- Ship cargo loading personnel + Roadway construction, utility, and railway worker
- Survey crew + School crossing guard
- Delivery vehicle driver + High-volume parking and toll-gate personnel + Airport baggage handler and grounds crew + Emergency response and law enforcement personnel
- Special events director

ANSI Class 2 Safety Vest

Improving upon our High-Visibility Vest, our ANSI-certified Class 2 Safety Vests meet the ANSI/ISEA 107-2004 standards and are made of extra-durable polyester mesh, with reflective trim all around.

Fire Retardant Safety Vest

Ideal for situations where ARC-resistance is required, our Fire Retardant Safety Vest will offer your employee the protection they need. These vests meet both the ANSI/ISEA 107-2004 standard for high visibility and the ASTM 1506 standard for protection.

Custom Safety Vest

For those who are looking for more form and function in their vests, we offer a line of customized vests designed to meet your specific requirements – like adding your company logo or additional reflective striping. In fact, we currently produce custom vests for the Ohio Department of Transportation, several law enforcement agencies, and many contractors. As always, our vests – whether Class 2, Class 3, or other certifications – always meet the ANSI/ISEA 107-2004 standards.

All vests are made with 3M™ Scotchlite™ reflective material and are available in Safety Green and Safety Orange.

Protecting your employees while Helping your community.

When you purchase safety vests from Goodwill, you're not only investing in the protection of your employees, but you're investing in the future of your community.

Revenues generated through the sale of our safety vests are funneled right back into our community development programs – helping our friends and neighbors prepare for, find, and retain employment. In fact, we assist more than 6,000 people annually through our on-going education and training programs, which, in turn, help to strengthen the region's economic growth.
